

# West Winch Primary School

## Maths Presentation Code

- Always work in pencil for all your maths work.
  - Corrections should be made in blue pencil.
- Only write one number in each maths book square.
  - Draw your lines using a ruler.
- Write the question number in a bracket and miss one square in your maths book before starting your work.
- Leave at least one line of squares between each calculation.
- When working down the page, fold the page in half to make two columns.
  - Use the short date in all maths work.
- Leave at least one line of squares when starting a new piece of work.
  - Numbers should be written like this:

1 2 3 4 5 6 7 8 9 10
